Bullet tooth

B47K22

Check DRILLNOVA B47K22 dimensions, carbide tip and body design, holder fit and field inspection records before ordering teeth, holders and retainers.

Published reference specifications

Insert diameter	22 mm
Body diameter	50 mm
Section insert-height callout	27 mm
Overall length	130.1 mm
Lower diameter callouts	30 / 38 mm

Before selecting a replacement

Match the tooth, holder and retainer as one installed set. B47K22H is a distinct dimensional version; the H suffix does not identify a hardness grade.

Nominal catalogue references. The agreed order drawing defines the supplied configuration and fit. Product rendering for identification; not an engineering drawing.
