Roller bit

MH-3

Review the DRILLNOVA MH-3 roller bit, published dimensions, weld-on mounting, construction details and documented core-barrel field support.

Published reference specifications

Mounting	Weld-on
Cone / insert layout	139 mm catalogue cone size; 52 inserts × 14 mm diameter
Cone / leg material	Confirm cone and leg grades against the selected drawing
Cutting material	Tungsten carbide
Bearing / seal	Journal bearing / O-ring rubber seal
Lubrication	Vacuum grease system
Protection options	Gauge and shirttail protection available

Before selecting a replacement

Confirm radial position, working height and orientation against the selected barrel drawing. State whether the request is for replacement roller bits, a cutting ring or a complete core barrel.

Nominal catalogue references. The agreed order drawing defines the supplied configuration and fit. Product rendering for identification; not an engineering drawing.
